EDUCATION

- PhD, Agricultural & Applied Economics** 2021 – Expected May 2027
University of Wisconsin–Madison — dissertator. Advisor: Paul Castañeda Dower
- MA, Economics** 2020
New Economic School, Moscow, Russia
Thesis: “Polygamy and Inequality in a Male-Dominant Society” (advisor: Hosny Zoabi)
- BS, Theoretical Physics** 2018
National Research Nuclear University MEPhI (Moscow Engineering Physics Institute), Moscow, Russia

RESEARCH INTERESTS

Water and natural-resource economics · development economics · institutional and political economy · behavioral and experimental economics · economic history

JOB MARKET PAPER

“First in Time, Last in Line? Water Rights, Canal Position, and Drought Inequality in Arizona”

Full working draft. Builds a statewide water graph linking 54,946 Arizona agricultural plots (2016–2023). Documents a static head-to-tail crop-health gradient and estimates how distant upstream irrigation activity predicts downstream outcomes during drought. The drought-state gradient is concentrated in surface-water-dominant, junior-rights districts and is weaker with groundwater and district institutions.

WORKING PAPERS

- “Double Vision: A Study of Policy Change in a Transition Country”** (with Muzna Alvi, Paul Castañeda Dower, and Claudia Ringler)
LLM-assisted text analysis of laws, media, and focus-group discussions on water-policy reform in Uzbekistan; IFPRI collaboration.
- “Using Behavioral Games to Understand Water-Saving Technology Adoption in Uzbekistan”** (with Jamshid Shukurullaev)
Working draft. Framed field experiment with 190 farmers across four regions, drawing participants from the IFPRI farmer survey; conducted with CGIAR SPIA support.

WORK IN PROGRESS

- “Impact Evaluation of Drip Irrigation in Uzbekistan”** (with Paul Castañeda Dower, Muzna Alvi, and Claudia Ringler)
Survey-based impact evaluation of drip-irrigation adoption using the 2024 farmer survey; IFPRI / CGIAR NEXUS Gains collaboration.

MANUSCRIPT UNDER REVIEW

- “Water Conservation Through Simplified Drip Irrigation Scheduling for Cotton Cultivation in Uzbekistan”** (Jamshid Shukurullaev, Ahmad Hamidov, and Anton Liutin)
Three-season paired field validation plus a 32-farmer adoption panel (difference-in-differences); resubmitted to *Water* (MDPI) after extensive revision on June 30, 2026 (manuscript ID water-4014559).

RESEARCH EXPERIENCE

- Research Assistant, Paul Castañeda Dower** Summer 2026
University of Wisconsin–Madison — community institutions and adaptation
- Research Assistant, Dustin Frye and Gisella Kagy** Fall 2024 – Summer 2025
University of Wisconsin–Madison — environmental health and economic history
- Research Assistant, Paul Castañeda Dower** Summer 2023
University of Wisconsin–Madison — Russian economic history
- Research Assistant, Corbett Grainger** Summer 2022 – Spring 2023
University of Wisconsin–Madison — environmental and natural-resource economics
- Research Assistant, Andrei Markevich** Winter 2020 – Summer 2021
New Economic School — Russian economic history
- Junior Researcher, Hosny Zoabi** Winter 2020 – Summer 2021
New Economic School, Research Department — family and growth economics

FIELDWORK

- Uzbekistan — framed field experiment on water-saving technology adoption** Nov – Dec 2024
Co-designed and ran a lab-in-the-field experiment with 190 farmers across four regions, drawing participants from the IFPRI farmer survey; conducted with Jamshid Shukurullaev and supported by CGIAR SPIA.
- Uzbekistan — large-scale farmer survey (IFPRI / CGIAR NEXUS Gains)** Sep – Nov 2024
Prepared and fielded a large-scale survey of small and large farmers across five regions; trained and monitored local enumerators and traveled across survey sites.
- Uzbekistan — qualitative fieldwork on water-saving technologies** Summer 2023
Conducted focus-group discussions and in-depth farmer interviews across seven regions on the adoption of water-saving technologies, with Paul Castañeda Dower in collaboration with IFPRI.

TEACHING EXPERIENCE

- Teaching Assistant, AAE 350: World Hunger and Malnutrition** Spring 2024
University of Wisconsin–Madison — led four weekly discussion sections (cross-listed with Nutritional Sciences)
- Teaching Assistant, AAE 215: Introduction to Agricultural and Applied Economics** Fall 2023
University of Wisconsin–Madison — undergraduate introduction to agricultural economics
- Teaching Assistant, Development Economics (MA)** Fall 2020
New Economic School — course by Michele Valsecchi
- Private Mathematics Tutor** 2017 – 2022
Prepared students for mathematics-intensive economics BA/MA programs (New Economic School, HSE); calculus, linear algebra, probability.

AWARDS AND FELLOWSHIPS

- AAE Departmental Nine-Month Fellowship, UW–Madison** 2025–26
Departmental fellowship supporting fifth-year dissertation research.
- Deborah and David Penn Fund Research Presentation Award, UW–Madison (\$1,000)** 2025
AAE Graduate Committee award supporting presentation at the Central Asian Economics Conference, Astana.
- CGIAR–SPIA Fellowship (\$25,500)** 2023
Research fellowship awarded following external peer review; supported the behavioral-games field experiment in Uzbekistan (NEXUS Gains collaboration).
- CREECA Graduate Student Short-Term Research Award, UW–Madison (\$3,000)** 2023
Competitive award for the project “Current Cooperation Problems under Common-Pool Resources in Uzbekistan.”
- University Fellowship, UW–Madison** 2021–22
Nine-month university fellowship supporting first-year doctoral study.

RESEARCH GRANTS AND PROJECTS

- CGIAR GENDER Impact Platform, WEAI–Climate Learning Grant (\$100,000)** 2023–24
“Unveiling the Nexus: Climate-Smart Irrigation and Women’s Empowerment in Uzbekistan.” Named collaborator (survey design, fieldwork, analysis); PIs Muzna Alvi and Claudia Ringler.
- SPIA Supplemental Funding, IFPRI / NEXUS Gains team (\$40,950)** 2024
Team funding for completion of survey, fieldwork, and outreach for the Uzbekistan research program; research-team member.
- SPIA Scoping and Travel Grant (\$9,300)** 2023
Joint grant for scoping and preparatory fieldwork in Uzbekistan; co-applicant with Paul Castañeda Dower.

SKILLS AND LANGUAGES**Programming & software:** Python (pandas, GeoPandas, NumPy, SciPy), Stata, ArcGIS, QGIS, LaTeX, Git**Languages:** Russian (native), English (fluent)
